

We propose that you test your machines in several locations. We would recommend at least one game at each location but that is entirely up to your company. Together we would test them from one to three months and share on a profit sharing bases. If at any time you are not happy with the results, we will take them out. Just to let you know, no one has ever asked us to remove any the machines we have placed.

After the testing you can decide for yourselves, the best way to go forward. You can have the option to continue to profit share with us or end the relationship. We assure you that you will be happy that you are working with us. Cal Pacific has over 25 successful years in the business, 9 of those years in Asia.

Cal Pacific Group understands the problems of maintaining your profits in today's economy. Your customers are more conscious on not just how much they spend on entertainment but the quality of that entertainment. That in mind, we only carry proven, profit making games that attract instant attention.

People will go out of their way to come to your amusement centers, once they know you have our number one, coin operated game in the world. We guarantee to double your income on like games and many of our clients triple and quadruple their monthly take.

You do not have to believe us. Research the game and see for yourself. Better yet take advantage of our testing program as was outlined above, and see the results for yourself.

We will provide you with rapid response service, maintenance and help you promote your different locations. We have many proven ways to market our clients' stores. When you are successful, we are successful.
